Harry Braine; and Lieutenant Harcourt Morgan's men, second in command. It is also rumored that a Confederate naval officer took command of the Chesapeake at St. John's, and that the capture was part of a well-organized plot to seize several vessels in a similar manner, money for the purpose being freely furnished by rebel sympathizers.

The Chesapeake had an armory on board, chiefly sugar and cotton. There were on board two small cannons and some ammunition. Another report states that the capture of the vessel was effected under orders of Captain Parier of the rebel privateer. Retribution, and that Braine was his first lieutenant. She has since been recaptured by the Federals and taken to Halifax.

The Right Rev. Archbishop Polding, the father of the Catholic Church in Australia, who has been lately a visitor to the Right Rev. Dr. Goold, Bishop of Melbourne, passed through Melbourne on Friday, the 16th instant, on horseback, en route to Sydney, a distance of nearly 600 miles. His Grace chose the overland route, as he said, "to hold some places of interest to see, and many objects of view." It was pleasing to see the venerable Prelate as he sat his horse, looking as buoyant as if he were only twenty years of age, though it is said the venerable Archbishop is bordering on his 80th year, and what gave a patriarchal look to his Grace's appearance was the snow-white locks of his hair, among, according to the tradition, custom, on his venerable shoulders.

We are glad to be in a position to report that the health of his Grace the Archbishop of Sydney, at present on a visit to the Bishop of Melbourne, is improving. A bill for legalizing the marriage of a man with the sister of his deceased wife, has been read a third time and passed in the Legislative Council of South America.

The new Judge, Mr. Sergeant Shee, is fifty-nine years of age. He is the first Roman Catholic who has been promoted to the English judicial bench since the time of Queen Mary. Dismissal in Hungary—Hungary is said to be suffering under one of the most severe of national visitations. The facts look very gloomy, but it is stated that no rain has fallen there for two years, the crops are gone, the stock is perishing, and the people have commenced a great emigration.

The Crawley trials—The trial of Colonel Crawley has ended, as the public expected, in a full and honorable acquittal on both counts of the charge. The military officer, the illegals, was not made the ground of accusation, and there was no evidence to prove that the Colonel either designed or desired Lily's death, still less that he wished to outrage Mr. Lily. The only point really proved, was that in referring the Sergeant Major after the court-martial had found it was an innocent mistake, but that is a mere result of reaction. Had no trial been held it is certain would have been almost impossible. Had it been held in India nobody would have believed in the verdict. As there has been a thorough and visible effort to secure justice, and the conviction among all soldiers that justice will always be done is worth much more than the very large sum expended. It is said that several officers will have to exchange from the Inniskilling to other regiments.

Colonel Crawley's expenses from the pending court-martial, have been variously estimated at £3,000 and £5,000. Mr. Vernon Harcourt is reported to have £500, and £50 is to be paid for every day he may be employed.

Wheat—There has been another kind of wheat discovered in Chile, which is said to be much superior to that common to the country, on account of its abundance, its weight, and its quality. It is a species of the great variety, known as Great Grain, and will be called by the distinctive name of "Tritium Ovalle," after the owner (Don Francisco J. Ovalle) of the hacienda on which it is grown.

intended to postpone until the final result of the elections be made public. There is no longer any doubt of a Coedo victory. D. Mariano Varela went yesterday to unite his fearful sympathies with Sor. Acosta, or their misfortunes. Of course, our absent friend now vigorously condemns any persons who are opposed to General Mitre.

Dr. Herrera y Obes is likely to be President Berro's successor. He is of the Colorado party, and we believe a relation of our War Minister. This turn of affairs may put an end to the war. We regret to learn that the 'Pablo' is losing ground. Sufficient pains are not taken in the ensemble, and it is said to be very consumptive symptoms. It is really a pity that it does not supercede the 'Nacional,' but we cannot help feeling amused at Dr. Chassagn's attacks on the former object of his affections.

Our fellow traveller in Paraguay Dr. Arze, has been admitted as a Bolivian chargé d'affaires; we wish him every success in his Venecia enterprise. H. F. V. rubs down D. Carlos Cruz for a mistake, in saying 'El Pánico was the only stuporous delirium of the 'Nacional' office. He admits now that Koon is such an other.

There is a duel proposed, between Dr. Chassagn and D. Emilio Castro, ex-chief of the 'Pablo.' Our freighting colleague will soon gain a reputation. Verily the worst way to enforce one's argument is at a sword's point, or to give a man satisfaction by shooting at him. Such professional battles do not do as a nuisance, and we hope public opinion will soon explode their principles.

The Patron brings us news from Buenos Aires, that Captain Bruce gave a grand picnic, and several Irishmen were invading the campa on all sides, in search of land. The 'Ferro' Ferrer admits Mr. E. T. Mallon on his arrival, who is at present making a tour of the province, rather more for business than pleasure. We have sent 100 catalogues of the Buenos Aires to the Librarian. We will make a new edition every alternate month, if the names of new books be sent us in a list. Price \$3, owing to the limit of circulation.
