Conductors and Owners: MERLIN AND MENQUITA. Great and Useful Invention. No more Mortality for want of Water. Sure worth to Estanceros. Being the most Apparatus. Being notable the immense injury occasioned by the scarcity of water during the long (scarc) that afflict the camps of Buenos Ayres, I have determined to dedicate to the Estanceros an Apparatus at once simple and infallible for procuring as much water as they may require.

120 Baradinas per hour (it seems fabulous) is procured with my apparatus, without fear of at any time its getting out of order. This machine is worked by one horse and in one day's work can give 1410 Hordales; that is to say, sufficient water for 20,000 head of cattle.

By these figures can be calculated the immense advantages gained by its use. Another advantage is the facility of putting it together and taking it to pieces, so as to be able to transport it to any place where it may be necessary to use it, either for watering purposes or others.

GREAT MODIFICATION. I have made an improvement in my Apparatus, applying a new system which reduces the necessary force two thirds, giving it at the same time more regularity. Those interested can see it at Calle Moreno, No. 346 (Luzcarrado, Paris). Sole inspection of the Apparatus will prove to them the superiority of it over any other. ROBERT.

MEDICAL REGISTER. Is there any benighted individual in this great city who is unwary of the fact that we have a Medical Board?

As the Minister has not disclaimed his connexion with the perpetrators, it is to be supposed he winks at, or approves of them, and his political advantages, possibly, scruple not to make him an accomplice.

Madame Briol had a great triumph on her benefit night (Wednesday) in the role of Violetta. Although not fully pleased with the performance, we have never seen a Tavianita better than the one of the night.

On the 23rd ult., whilst a group of people was standing in a shop in San Pedro, some rockets were fired off, when that excitable Irish party, Mr. James N called out, 'Viva el Pátrio, viva los Cochinos!'

It is very annoying to find the curtain is not raised until past nine o'clock. The hour fixed, 8.30, is late enough.

THE POSTOFFICE TABLE. The postponement of the Southern Railway immigration was hardly necessary, seeing that yesterday was a very fine day.

MEMORIAL. The Commissioner-in-chief of the Southern frontier of Mendoza has presented to the Government a document which ought to be printed in letters of brass, stating that unless a supply of women are sent to Fort Bulnes cannot put a stop to the depredations which are daily taking place among the Indians.

appreciated in the present age, and there are even some persons in Buenos Ayres who hesitate not to call the members a pack of old fools and an incubation of the public. How ungrateful!

RIVER PLATE MAGAZINE No. 3. History of the Argentine Confederation—This is a continuation of an article which appeared in the former numbers, and is now brought down to the death of Urquiza.

TRAVELLERS BY OCEAN STEAMERS must have been struck with the universality of some of the pictures which adorn the saloons of the steamers: one in particular will, no doubt, have attracted their attention—a rucky bluff projecting into the sea, its feet level with the sea level.

As the Minister has not disclaimed his connexion with the perpetrators, it is to be supposed he winks at, or approves of them, and his political advantages, possibly, scruple not to make him an accomplice.

THE PLAGUE OF LIFE. It has long been a question of dispute between scholars, which of the two—manufacture of living tissue for barbaques and pantomimes, or parodying well-known writers, requires the smaller amount of talent joined to common sense.

mix themselves up in the political squabbles of this country? Most of us know from experience what severe headaches generally follow an election in Great Britain—headaches not, on these occasions, caused by wine, ale, or spirits, but by hard knobby blackthorns, and it is to be all wondered at that the natives of this country are every bit as excitable on political subjects as we are ourselves.

We call attention to a new play in Mr. Patrick Wynne's case against Vasquez for sheep stealing. Last week we incorrectly called that defendant Castex, he being a half brother to that family. Mr. J. C. Varela has frequently gone to live with Vasquez, but the latter refuses to withdraw the charge, on any conditions.

PLAYERS' EDITION OF POLITICAL ECONOMY. On the 23rd ult., whilst a group of people was standing in a shop in San Pedro, some rockets were fired off, when that excitable Irish party, Mr. James N called out, 'Viva el Pátrio, viva los Cochinos!'

It is very annoying to find the curtain is not raised until past nine o'clock. The hour fixed, 8.30, is late enough.

SAVINGS BANK
BANK MAUA & CO.

No. 103 calle de Cangallo. — BUENOS AYRES.

The immense advantages of **Accounts Current** are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are no very few Merchants who fail to keep one at the Bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have now hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, and of old age, in lieu of spending them in the immoral gambling, in lotteries and other frivolities.

The Bank of Maua & Co. of this city following the example of their Buenos Ayres September

The simplest method is bathing the animal, whether sound or affected, in the manner prescribed by the instructions.

The specific has been already found an effective remedy for insects (Garrapatas). Numerous certificates may be seen, showing the high repute of the Specific throughout S. America. ENGLISH GRAMMAR SCHOOL,
CALLE LARGA DE BARRACAS

Dor. M. Pongereard, of the London University College.

This Establishment, which from its foundation has been patronized by the principal British families of Buenos Ayres, is an exact reproduction of an English School, and a sound commercial education con- sistent with the acquisition of the French and Spanish languages is imparted to the pupils, and based upon the same system as all first class European institutions of the kind.

An over-sightful and constant super- vision, and a strict maintenance of order and propriety, are a sufficient guarantee that the mercantile education of the pupils are carefully attended to.

The different sciences taught in the English Grammar School comprise the English, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Mathematics Instruction.

Petra branches, such as Latin, Meta- physics, Grammar, A. M. and Drawing, are also taught by special masters.

The situation of the English Grammar School, in one of the most beautiful quarters of the Calle Larga de Barracas, at an easy gate of the city, is one of the most beautiful and picturesque of the environs of Buenos Ayres.

For particulars apply for prospectuses at the Standard Office, Calle de la Piedad No. 80.
