Thursday, March 10, 1884.

LATEST FROM SAN NICOLAS GREAT EXCITEMENT IMPORTANT MEETING

In consequence of the Provincial Government having removed both of the Justices of the Peace, and discharged Colonel Quintana, who, during his five years' residence in San Nicolas, by his good and upright conduct, had endeared himself to the residents, a meeting was convened on last Sunday evening at the theatre.

The Government, we understand, after removing Dr. Marengo from the office of Juez de Paz, named another party, who refused to accept office, unless he received five thousand dollars per month, alleging that as he did not wish to steal, he should get a salary sufficient to support him.

The camps about San Nicolas are covered with grass, and each day new flocks of sheep are arriving from inside. Messrs. Lanus and Co. have purchased 28,000 fanegas of wheat, and it is said will net \$50,000 fuertes on the speculation.

Mr. Armstrong or Carranzas mill is doing a good business and receiving large amounts of wheat from Santa Fe. The Frenchman who owned the flour mill on the Ramallo died suddenly last week.

Seven or eight vessels are at present loading wheat at San Nicolas for Buenos Ayres.

Sr. Cataña, who keeps a hardware store in the Plaza, is the agent of the 'Standard.' We recommend all our friends who are up in that neighbourhood to pay him a visit.

LATEST FROM ROSARIO ARRIVAL OF THE 'PAYON'

Copper and Prisoners on board. The 'Payon' arrived yesterday morning a couple of hours behind her time, owing to a heavy fog which detained her in the Palmas for several hours.

THE TOASTS OF THE INAUGURATION

Previous to the banquet held on Monday, every thing had been arranged in such a manner that no confusion could possibly take place.

It is seldom that some of the political folks of this country get anything like a respectable audience to listen to their tribune remarks, that it would display greater self-denial than most men can boast of, unless strictly prohibited, were they to allow the opportunity to slide.

THE INDIANS AT BAHIA BLANCA

By a vessel which touched at Isla Verdi, we have the following news:— A cacique had arrived at Bahia Blanca from Calfulcura and Guaiquil, bringing in Garcia, who had been taken prisoner by the Indians.

1st. Mr. Parish—'The Argentine Republic; Progress and Happiness'— air—National Anthem. 2nd. Brigadier Gen. Mitre to answer this, and toast Queen Victoria.

10th. Mr. Parish to answer, and toast 'The Government of Buenos Ayres.' 11th. Sr. Acosta or Dominguez to acknowledge this toast.

12th. Sr. Santamaria to propose 'The Provincial Legislature and the Municipality, Home and Foreign, the absent friends of the Railway, the Press, &c.' There were other toasts which were not allocated to any one in particular, but were left to those who, it was thought, would do them most justice.

SIGNS OF THE TIMES

Truly Buenos Ayres is struggling bravely to deserve the name of the Athens of South America, and if the people would only leave politics to one side, and turn their whole attention to works of peace, she would soon reach such a pinnacle of prosperity as to make it a hard work for other South American States to reach her.

THE ITALIAN OPERA

As we have before reviewed the *mfec* scenes of 'Un Ballo en Maschera,' by the Briol Mollo Company, it is hardly necessary for us to say that Tuesday night's opera was unusually good, this being one of the best which the present artists give.

We regretted to see the house so thin, the audience scarcely numbering 800. It is easy to see that the English patronise the lyric art more than natives do, for there were over a hundred

of our countrymen present, including the English Minister and Consul Paldi, with their ladies. President Mitre and family set a good example to Argentina, but very few boxes were occupied by native families.

The first act passed off very well. In second, Madame Mollo played and sang to advantage, but we have heard L'olui sing, 'Che mi fa ridere' better on former occasions. Madame Briol was exquisite with Leimi, both in voice and action, in the garden scene of act 3: Celestini gave some beautiful solos in the same act. The prettiest *bijoux*, however, of the opera, are 'Tra la la,' and 'Tu non sai,' by Madame Mollo. On the whole, the present company is the best we have seen for years, and if the opera is not well attended, it argues bad taste, on the part of the public, rather than any want of merit of the artists.

MONTEVIDEO

We have the papers of Sunday 6th inst. Letters from Paysandu 2nd March, complain that Col. Lengua uses arbitrary power, having suspended a paper called 'La Situacion' which was nevertheless friendly to Government.

On the 2nd Flores was near Canelones, and made a diversion towards Cerro Berdoug, but on the approach of the Government troops he concentrated his forces. Instead of scattering his men as heretofore, he is now very cautious, and has taken up a strong position some 14 leagues distant. Servando Gomez writes that he is at Barra de Casapa and cannot overtake the enemy who makes forced marches towards the Sierra, being now within a league of Minas.

Despatches from Salto, Feb. 27th, announce the arrival of reinforcements from Tacuarembó, raising the garrison to 600 men. Carabajó was near Paysandu, which gave rise to the idea that Flores meditated passing the winter near that town. Col. Ruffo scours the department, at the head of a good force: several deserters from Flores came to make their submission.

Col. Valdez writes from Canelon Grande, 2nd inst., that the rebels were making a rapid retreat from Ocampos to Minas, being pursued by the army whose advanced posts reached to Pinayrua. Capt. Vasquez writes from Tala same date, that he had sent two parties to pick up stragglers in the direction of Larrabaga, the Blanco troops being encamped at Chalamo.

The new President has declared the port open, and permitted the return of Messrs. Carreras, Castillo and Basañez: it is expected he will extend this favor to Messrs. Estrazulas, Garbala, and Vasquez. Col. Perez has resigned his post as War Minister pro tem. On the 3rd. Flores was at Arroyo de Los Chanchos, and the Blancos passed Arroyo Soldado in Minas, for the Sierra Grande, the vanguard being under Infante and Laguna who picked up sixty stragglers. General Lamas received the news of his appointment as War minister: his reply is not known. The rebels surprised a military train near Durazno, destroying whatever they could not carry off.

Adolfo Bourgoing has prosecuted the *Pais*. The *Matuá* Bank advertises that the transfers of Bonds of the Anglo-French debt must be made between the 10th and 31st inst.

EDITORS TABLE

We are happy to hear our countrymen are fast getting hold in Santa Fe. An enterprising Wexford man has purchased a magnificent estancia about 18 leagues from Rosario at the very moderate price of three thousand Bolivian dollars per square league.

Sr. Don Estevan Rams y Rupert, the celebrated Salado explorer, arrived in town yesterday. We salute this distinguished Argentine, and learn with the greatest pleasure that the works are progressing favorably. Mr. Rams informs us that our cotton seed has been all planted in Santiago del Estero, and come up beautifully, and that considerable attention is now being paid to cotton growing in every part of the interior.

The splendid saladero of Messrs. Senosans and Co. is at present working; we hear that over 15,000 animals have been killed there recently. Sr. Senosans arrived in town yesterday and reports most favorably on cotton.

Consul Hutchinson, of Rosario, reports to the scene of his diplomatic labours to-day, having come up to town purposely to assist at the celebrated inauguration of the Great Southern Railway. We bid him a cordial farewell, and wish him safe home to the Ranelio Britannico.

In her infancy she bid fair to do well, but now her temporary sponsors in this country are quite astonished at the talents she has lately displayed. She is as far advanced as the last book of San Fernando, and expresses a wish to continue her studies on the Banks of Lujan. This of course will be charged amongst the extras; and we only wish our daughters' extras were one half as cheap and useful.

The works of the Argentine Central Railway have been recommenced, and the engineers are now occupied in making the culverts along that part of the road which has been finished by order of the Government.

A terrible fight occurred yesterday morning on board one of the whale-boats in port, arising out of a struggle for some passengers' luggage. Some soldiers who were on board the *Pavon* guarding the prisoners who arrived from Rosario, rushed on the combatants with drawn swords, and nearly cut down both of the whale-boat men.

Messrs Henry A. Green and Co., we perceive, have advertised for sale the doors and windows, besides sheds, bricks, &c., which are on the ground upon which the principal station of the Great Southern Railway will be built.

The rapid rise in ounces has caused quite a sensation in the country districts, farmers begin to realize the serious loss which these fluctuations are causing. A flock of sheep which last year was worth £900, is now, although selling at precisely the same price in paper money, worth hardly £750. This is so serious a loss to men who have to undergo every species of hardship to gain an independence, that farmers are now beginning to think the proper way to sell sheep is in specie, and have done with the rotten paper currency, which seems to be drifting fast to zero.

We learn that the Bishop has appointed the Rev. Mr. Kavanagh to the parish of San Pedro.

The first battalion marched yesterday at 8.30 a.m. for 25 de Mayo. They presented a very soldier like appearance, and it is to be hoped will guard our frontier more effectively than of late.

We have to salute the Rev. Mr. Carter, American Missionary just arrived, who did us the favour to visit us yesterday in company with the American Pastor. We wish him every success in his Christian labours, and a long residence amongst us.

SCANDALOUS COUNTERFEITING

Thousands of Zinc Bolivianos. We caution our readers against receiving Bolivian dollars without scrutinising them, as some thousands of beautifully stamped zinc Bolivians are at present in Rosario, and the authorities have been unable to discover the 'bogus mint.' Genuine Bolivian dollars are very scarce in Rosario; and it is thought that an ingenious French barber, who has his friends in Buenos Ayres, perceiving the great dearth of this deteriorated coin, considered that it would be highly advantageous for the commercial community to get this zinc coinage in circulation.

REMOURED RESIGNATION

It is current in Rosario, that in consequence of the immediate departure of Governor Sarmiento for the United States, as Argentine Minister, Mr. Rickard, the manager of the San Juan Mining Company, purposes immediately resigning and returning to Europe. We should regret sincerely that the report be true, as we believe the Company would prove a great Argentine bubble should Mr. Rickard leave it—still as it is currently talked of in Rosario, we think it right to give our readers the *on dit*. It appears the San Juan stockholders refuse to accept Mr. R.'s bill of expenses in Buenos Ayres and in Europe. Owing to the state of the country the quartz is very scarce, and the Company at present working in San Juan cannot obtain sufficient to keep the works going.

GRANTORS FROM LITTLE HORN

Few men can foresee the results of their actions and thoughts. How seldom have great inventors lived to see the full development of their ideas. The thought, the germ of some truth, which is to effect a revolution in society, or in the physical or moral condition of the human race, springs forth from some active brain, but it is only after the lapse of years that its full importance is appreciated. Such thoughts or ideas must generally pass through many minds before they reach the acme of their perfection. Occasionally, however, a truth springs forth at once, full grown, like Minerva, from the brain of Jove, and happy is the inventor who lives to see the realization of his darling project. Among the few mortals thus favoured is Professor Thomas Holloway, who, about a quarter of a century since, enunciated the beautiful, yet simple theory upon which his practice is founded. His Pills and Ointment were placed before the world, and he lives to see their beneficial results. There are many thousands we are told, who are indebted to him for health, without which life itself is but a burden. Holloway's theory is a simple this:—He says there is but one way of repairing a watch properly, or any other piece of mechanism, nor is there, he says, more

than one true system of repair in treating the animal machine. Most people know how food is digested, and that the liver is always at work in distilling certain fluids, called gastric juices, which are carried into the stomach, and without whose proper action upon what is eaten or drunk, the process of digestion could not go on. Holloway's plan is to combine a compound medicine which would be so suited to the action of the liver and stomach as to regulate their functions in a proper manner. In this there is very little mystery, and, perhaps, but little difficulty; but that he has hit upon the right ingredients, and their proper quantities and combinations there can be but little doubt. His Pills do their work so effectively that they have become household words, not only in this country, but in most other parts of the globe. We do not propose to advocate their use, but merely to state facts. And, we say, he is either the greatest quack that ever lived, and that the whole human family is deceived by him, or that he has accomplished much that is desirable; we, therefore, leave this question to be decided by others; but until we hear that his doctrine is false we must conclude that his Medicines really possess very extraordinary medicinal properties.—*Massachusetts Advocate*.

THE KEANS IN AUSTRALIA. Despite the rising prices and other drawbacks, the Keans have created quite a furore, and the theatre has nightly been crowded to excess. In one week over £1,500 has been received for admission, a sum never before equaled in the colonies. Their reception has been most enthusiastic. A most successful season was closed on Saturday evening last, and Mr. and Mrs. Kean left on the following Monday for Sydney. On their return they will visit the goldfields, and in all probability Tasmania and Adelaide. Since his arrival in the colony Mr. Kean's health has been much improved; they will, it is said, remain several months here. At the other Melbourne theatre Mr. Barry Sullivan, the lessee, has been bidding high for popularity, has been running the same pieces as the Keans have been performing, and has thus challenged criticism—which, on the whole, has not been favourable.—*Melbourne Letter*, Nov. 29.

MISCELLANY

MAKING READY.—The Copenhagen journal, 'Paedrelandet,' publishes a telegram from Norway, from which it appears that the war material of that country is ordered to be completed, and that subaltern officers are to be trained. This is apparently another indication that Sweden has by no means entirely abandoned her intention of taking, in case of need, an active share in the menaced Continental war. Denmark is still preparing with energy for defence. Sixteen thousand troops of the reserve are to be quartered in Copenhagen; the strong system of defences at the Dannewerk is being powerfully strengthened, and is held by the Danish troops, to the number of nearly 16,000; about 16,000 more are in second line at the town of Schleswig, and all the military class above the age of thirty-five have been called out for service. On the Elder, the state of matters remains unaltered.

THE WEIGHT OF MR. THACKERAY'S BRAINS.—It is reported that three surgeons, Mr. Thackeray's intimate friends, made a *post mortem* examination of his body on the day of his death. They had the curiosity—and the coolness—to dissect his head and weigh his brain. It was found to be of the enormous weight of 584 ounces—far, very far, above the average of ordinary men.—*Court Journal*.

THOMAS FRANCIS BRAGHER. ... General Meagher's resignation, sent into the War Department some months ago, and accepted at the time, has been cancelled, and the general commission of Brigadier General will date back to his original appointment. This will give him precedence over several generals now in the field. It is reported that the general has been nominated a Major-General.—*New York Tablet*.

Well founded apprehension is felt for the fate of the Annamite Ambassadors, who embarked a month ago on board the Spanish war-ship *Terceira*, for Egypt; no tidings of that craft have been heard of in any Mediterranean port, and the foundering of the steam-ship *Atlas* is collaterally remembered; Her Majesty still continues to watch with the liveliest interest in the progress of the work at Frogmore for the man-of-war of the late Prince Consort. Notwithstanding the severity of the weather, she pays daily visits to the spot, and remains for some time with the building. Baron Marchetti, the eminent artist who is commissioned to execute a life-sized statue of the late Prince, to be placed in a reclining position on the tomb, has been directed by his royal patron to execute a statue of herself to be placed on the adjoining monument. The material of both statues is to be bronze, and the model of that of the Prince is in a forward state. The mausoleum, when completed, will cost upwards of £70,000. Her Majesty has expressed her desire that she may be interred by the side of the late Prince, in the tomb which she is now preparing.—*Letter in Belfast News-Letter*.

EMIGRATION FROM THE CLYDE.—The emigration from the Clyde has made remarkable progress during the past few years, and Glasgow is now the general port of departure for Scottish emigrants.

Where grow the arts of war and peace.—Where Paris, Rome and Mitre sang, &c. (Perhaps 'Cosmopolite' could get some of his Shakespearean brethren to improve upon the remainder of the lines).

ARRIVALS. 8th. 'Arce'ona, Spanish brigantine. Montevideo, Brazilian war steamer Arago.

Wanted. A respectable English boy who can speak Spanish, in 'The British and Foreign China, Earthenware, and Glass Store,' Corner Potosi and Defensa.

On the 8th inst. the following produce entered the plaza of this city. 1,347 cowhides, 188 horsehides, 752 doz sheepskins, 14 doz calfskins, 166 arr. horsehair, 12,687 doz wool, 25 doz tallow, 295 fanegas wheat, 44 doz barley, 77 arr. maros grease, 12 lbs. ostrich feathers, 47 nutria, 24 carloads firewood, 5,000 cantallas piaches, 3,400 sandias, 2,000 neltos, 2,000 quinces, 1,000 bundles straw.

LOCAL EVENTS. The Inauguration.—Braham, the singer, was in the habit of pronouncing the word 'enthusiasm' as 'tussymiss', and we have even heard one of our priests spelling the name of a Welsh village something like Bettyceodus, which he called Bettyceumness these two names were almost unintelligible: but on reading over the account of the Southern Railway inauguration in one of our native colleagues we find our worthy Consul called Panils and Parli, other gentlemen are equally mentioned as Peto Betto and Keik. Should those gentlemen recognise their own names, they are well fitted for posts in the dead letter office, or, what is equivalent, to arrange letters that come, steamer after steamer, for our Mesian brethren, as some of the addresses would require the talent of a Colonel Rawson, skilled in hieroglyphics, to make them out.

THE BOLSA. March 9, 1864. Total sales, 483,720 patacones. Opening price 29 70 29 60 Following price 29 70 29 60 Saturday, March 12 29 75 29 60 Sunday 29 80 29 40 Closing price 29 55

SAVINGS BANK
BANK MAU & CO.
No. 103 calle de Cangallo. — BUENOS-AYRES.

The immense advantages of Accounts Current are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence.

The Bank of Mau & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness or old age, instead of spending them in the immoral gambling, in lotteries and other frivolities.

The Bank of Mau & Co. of this city following the example of their Buenos Ayres September 19th 1863.
p. p. Mau & Co.
WILLIAM LEBLOND.

CONDITIONS:

- 1st. The Bank receives at interest any sum from **Twenty five dollars currency or one silver dollar upwards.**
- 2nd. The interest allowed is **six per cent (6%)** per annum which is liquidated every six months.
- 3rd. The depositor can at any time retro the whole or part of the money deposited.
- 4th. Once the amount deposited exceeds **Twenty five thousand dollars currency, or one thousand dollars silver** the depositor if he wishes can open an account current according to the rules established by the Bank.
- 5th. In case the depositor loses his Pass Book it can be replaced by another on paying **twelve dollars currency,** and advertising the loss in the public newspapers.

NOTICE TO THE LADIES.

ENGLISH GRAMMAR SCHOOL,
CALLE LARGA DE BARRAGAS
Don. Mr. PONGERARD, of the London University College.

This Establishment, which from its foundation has been patronised by the principal British families of Buenos Ayres, is an exact reproduction of an English School, where a sound commercial education is combined with the acquisition of the French and Spanish languages as imparted to the pupils, and based upon the same system as in all first class European institutions of the kind.
An ever-watchful and constant supervision, and a strict maintenance of order and propriety, are a sufficient guarantee that the moral and behaviour of the pupils be carefully attended to.
The different branches taught in the English Grammar School comprise the English, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and English Instruction.
Extra branches, such as Latin, Mathematics, German, Music and Drawing are also taught by special masters.
The situation of the English Grammar School, in one of the most delightful quarters of the Calle Larga de Barracas, at the very gates of the city, is one of the most healthful and picturesque of the environs of Buenos Ayres.
For particulars apply for prospectuses at the Standard 19th c. Calle Bolivar 71.
Dn P. PONGERARD.

LEA AND PERRINS' CELEBRATED

Worcestershire Sauce.
The great success of this "delicious and palatable" has been the signal for the appearance of many "spurious imitations," totally different in "flavor" and "digestive properties" of this Sauce.
Purchasers are earnestly requested to ask for **LEA AND PERRINS' SAUCE,** Prepared only by **LEA AND PERRINS, Worcester.**

LETCHEFORD'S WAX VESTAS.

R. Letcheford & Co. had themselves responsible for the quality of their Wax Vestas and having recently built an extensive Factory especially adapted to this peculiar manufacture they can bestow preference on all the details which render their Vestas the best in the market. Customers, therefore, when ordering Wax Vestas should be particular in requesting Letcheford's "masks," as others are often substituted.
1 Cole's Lane, Bethnal Green, London.

The Standard.

Printed and Published by the Standard Printing Office, No. 12, Calle de la Piedad, by the Proprietors and Editors: H. O. & S. L. MACKAY.
