DRY HIDES

The sales for the past fortnight of all classes, and from all places, amount to 55,500, the greater portion of which have been for North America and the Mediterranean, considerably less for the northern parts of the Continent.

ON CHANGE

Paper money improved still further today. Patentes opened very weak at 29 3/4, fell to 28 1/2, and closed weak at 28 1/2. When it is taken into account that at present specie is in demand for transmission to the rivers to enable the saladeros to pay their way, and that the principal circulating specie medium (Bolivianos) are extremely scarce, it is not to be wondered at if paper money should decline somewhat.

Wool Market

No improvement in rates. Speculative arrivals have greatly increased the amount of available tonnage, and the rates continue weak. Moreover the Liverpool line of steamers, offering a quick and regular service, meets with a decided preference, and seriously injures sailing vessels. Charters for orders have been scarce this month, and the saladeros of the River Plate being at present doing very little, it is impossible to say when such a bad state of things may alter.

Many articles are selling at apparently higher prices in paper money, but this is fictitious, owing to the severe depreciation in our currency.
