SANTA FE CAMPS.

So much has been said both for and against the lands of Santa Fe, that we think it right to offer a few remarks on this vexed question. There is a very general impression that the lands in Santa Fe are much coarser than those of Buenos Ayres, and the grasses ill adapted for the rearing of sheep.

Along the Arroyo Medio, on the Santa Fe side, the country is covered with the very choicest 'gramilla,' although there is scarcely a sheep 'puesto' in the neighbourhood. Further on towards the Paven the camps appear to get a little coarser, but still there are no finer camps in South America for the rearing of sheep than in this neighbourhood.

The cause alleged by Servando Gomez for resigning the chief command is ill-health: Government has returned him thanks for his services. The army is suffering greatly from want of horses and the Comercio suggests buying 1000 in Rio Grande, Corrientes, or E. Rios.

The commander of the Villa Silita writes, under date March 5th, that he made a descent on Fray Bentos with two companies, on the 3rd inst. and, aided by Captain Arca, succeeded in capturing the filibuster chief, Varas, with two other rebels, who held the place for Flores.

A rebel named Posolo has surrendered and declared as follows: I am an Oriental, aged 19, and have been five months in Flores' service, having been enrolled in Buenos Ayres by Dr. Ferrer...

He adds: the rebels have a fine supply of horses, but the army is demoralized, and desertions occurring daily. The officers second in command under Flores are Carralillo Borjes, Carabajal Suarez, Fidelis, Lara, Conde and others.

We expect the English mails to-day from Southampton, February 9th. Our supplements will be distributed at the houses of subscribers, immediately on arrival.

From a foreign estancia recently arrived from the partido 25 de Mayo, we learn that the camps out there are in splendid condition, and the sheep farmers doing well.

M. Beyfuss left on Saturday in the packet for Germany. It will be recollected that this gentleman, in company with Mr. Bamberger and others, was about to start a bank in Rosario.

The 'funcion' in S. Martin on Sunday day a complete triumph, we understand. The heat however was so great that all who went out to the affair were well pleased to get back.

The Dotorrell arrived on Sunday afternoon, but brings nothing new from Montevideo. As to Flores, he is said to be sojourning about Salto, but the state of the camp is truly awful, and if the winter sets in without rain the estancieros will lose their stock.

We regret to say that, notwithstanding the repeated efforts of the neighbours, the body of the unfortunate Mr. Buchanan has not been found. It will be remembered, that he was drowned whilst bathing near La Paz.

In the 'Reforma Pacifica,' we perceive a communication respecting Mr. Ruding's statement of the capital of the London and Liver Plate Bank in Montevideo, in which Mr. Ruding is charged with wilfully diminishing the capital, in order to escape the tax.

The non-arrival of the Mercy yesterday leaves us rather scarce of news, as owing to the extreme heat, there is positively nothing stirring about town.

The native papers still refuse to publish President Mitre's speech, although we thought it would have been in Sunday's 'Nacion Argentina,' as the President sent down one of his 'aide-de-camps' on Saturday to our office, for the paper which contained it.

It was rumored in Montevideo, on Saturday night, that Flores and the Government troops had at last fought, but the result was unknown.

The heat at present in Buenos Ayres exceeds anything ever heretofore known. Generally speaking, in March we begin buying house coal for the winter,

EDITORIAL TABLE.

but this year we are obliged to invest in ice. On Sunday the heat was excessive and yesterday it was insupportably hot.

There has been a terrible row in Entre Rios about appointing a Juez de Paz. In Gualguayehu the most stormy debates arose in the Legislature on the subject; but now, it appears, the matter is settled, but owing to the extreme length of the speeches, and the awfully hot weather, we have been unable yet to discover which way the matter was decided.

The Curlew and Pato, H.M.B.S., have arrived at Montevideo. We have to salute the Rev. Mr. Clemenger and Dr. Sweetnam, of the latter vessel, who visited us yesterday, and intend remaining a short time in this city.

FINE SHEEP IMPORTED.

In 1861 there were 1210 fine rams and ewes imported, of a gross value of 1,982,120 dols. In 1862, the number of sheep was only 1162, but the gross value was 2,896,985. More than half this number of animals was from Germany, and the most were bought by Irish sheep-farmers, who have of late expended enormous sums in refining the breed.

The spirit of improvement so general throughout the camp. Nevertheless, we would caution our country friends against letting progress degenerate into extravagance, as is almost absurd to think the improved class of wool can make up for an outlay of £200 on one ram.

The risk attending the life of a single animal (nominally worth 800 mestsiza sheep), is too much even for a capitalist stock-raiser; and we would insist on trying Irish sheep instead of Negrettes.

In a letter received last month, by Messrs. Wilson of this city, from their correspondent in Liverpool, it is stated that some Irish sheep sent out to Buenos Ayres, by way of experiment, have thrived very well, and they can be put on board at Liverpool at £5 per head.

TRACTION ENGINES.

We have seen a very interesting letter from Mr. Ruzibol, directed to a gentleman in Rosario, and dated Paris, 21th January. Mr. Ruzibol was to start next day for England, in order to buy the engines and other machinery requisite for the establishment of traction-engines between Rosario and Cordoba.

ASSASSINATION IN SALTO.

The 'Defensa' of the 9th inst. reports a horrible murder committed by an Argentine named Saturnino Ballesteros on the person of a respectable and worthy Spanish resident, one Pedro Sarriera. The criminal is a butcher by trade, and when the police went to arrest him they found him coolly eating his supper, at home; on being interrogated he said "oh yes, I killed him, and it was with this knife," showing the one which he was then using.

LEZAMA'S QUINTA.

The wonderful clipper St. Pierre which made one of the quietest voyages on record, almost beating steam, in a run of 35 days from Havre to Buenos Ayres, has brought out a fine collection of plants for Sr. Lezama's quinta.

escape gardener who has had much experience at Cayenne and in Brazil.

The liberality of Sr. Lezama in allowing his model quinta to be a kind of city park, and keeping it up at enormous expense, is a striking contrast with the miserable shabbiness of Government in suffering Palermo to go to ruin.

UNITED STATES & A PLAT.

We have had frequent occasion to remark the friendly feeling existing between the Cabinets of Washington and Buenos Ayres, more especially since Mr. Kirk's appointment to the latter capital.

U. States Legation.

B Ayres. March 3rd, 1861. To His Excellency Dr. Elizalde Minister of Foreign Affairs.

Accept my assurances &c.

ROBERT C. KIRK. State Department, Washington, Nov. 14th 1863. To Mr. Robert C. Kirk.

I have received your note July 6th. The friendly manifestations towards the U. States, on the part of the Argentine Government and people of B. Ayres, on the anniversary of American Independence, have been received with great satisfaction by the President, and I assure the N. American people will appreciate and return the same.

I am, &c.

W. H. SEWARD. Department of E. Affairs, B Ayres, March 9th, 1864.

To the American Minister, Mr. R. C. Kirk.

I have had the honor to receive, with your note of 3rd inst, the copy of Mr. Seward's to you, expressing the satisfaction of his Government for the spontaneous demonstrations of the Argentine Government and people on the anniversary of American Independence.

I am, &c.

RUFINO DE ELIZALDE.

CONCEPCION DEL URUGUAY.

We have dates to the 12th instant that there was a dearth of news, the only item being a letter found on Varas at Fray Bentos, from the commander of the Argentine vessel 'Pampero,' dated Jan. 10th, which says "We are here in front of Higueritas, expecting the oriental war-steamer, and if they attempt to pass we will sink them."

LOCAL EVENTS.

Justa Customs to Buenos Ayres—A few evenings ago a native 'ran anuck' through the Calle Tucuman. He mounted a splendid horse, and galloped along the street wounded, with his knife, as many persons as happened to come in his way.

ON 'CHANGE.

March 14, 1861. Patacons opened this morning at a very low figure, 29 05, but ran up immediately to 29 20. This is regarded as a sort of trick of the bulls. When specie looks downward they invariably open the market with fictitious sales, at very low rates, knowing full well that the market is unprepared for such a fall, and that before midday paper money must take a turn; but it is the opinion of all that specie must come down, and if the National Finance Minister strictly carries out the letters of the law, the monthly burnings of the extra duties, ounces will fall below 450.

The Minister, it is said, has expressed his determination that, come what will, the currency must be burnt; and indeed, from the general tone of the market, it is clear that on the 15th, at least, he is believed. Sales of patacons at long dates are beginning to be made at considerably under the cash price. This is a good sign. At one o'clock today patacons were selling for cash at 29 20, and for the middle of next month at 29 05. Total sales for cash, 32,442 pata. For Saturday, 16,200

currency, dust, want of drinking water, and now come the locusts. The districts away to the west are the principal sufferers, so far.

Accident—One of the native newspapers says—One of the pupils of the National College, getting tired of being confined to the close schoolroom, watched an opportunity and slipping out into the street, unperceived, went to have a bath. He was soon missed, and on search being made he was discovered to be drowned.

Consolation—The 'Tribuna' of yesterday has some verses published in its columns. The argument of these lines is to give a reason for an Oriental general getting his throat cut—for the Indian's descent upon 25 de Mayo—for the Club Liberal losing the elections for the dulness of the cronistas, and for all the petty accidents which happen on the Northern Railway.

The Southern Railway.—According to rumour, this railway is somewhat short of labourers, in spite of the high wages which are offered. Were a thousand labourers to arrive just now they would be immediately engaged. What is not seen in the Northern States.—It will be many a long day, in spite of all that Horace Greely or old Aunt Stowe may write, or Henry Ward Beecher may rant, ere any dry goods store will have the courage to do as one of that fraternity has done in Buenos Ayres, and that is advertise "The best kid gloves para hombres y señoras uecros." Letting alone the bad grammar, it is rather a plucky thing to hint that uecros can be supplied with gloves at the same establishment which furnishes articles for 'white trash.'

Markets.—On the 11th instant the following produce entered the various plazas of this city:—Cowhides 132, horsehides 10, sheepskins 883 doz, wool 3072 arrobes, horsehair 81 arr., mares' grease 52 ar., wheat 335 fanegas, maize 15 do, firewood 40 cartloads, melons 4 00, sandias 10,000, peaches 9,000 cuartillas, quinces 12,000.

The Italian Legion is under marching orders for Azul. It is a pity that if these fellows are so fond of soldiering as to enlist under a foreign flag, that they do not stay at home and join their heroic countryman, Garibaldi. With him they were more likely to see fighting and hard knocks than here; but, perhaps, this does not agree with their stomachs, and they prefer playing at soldiers to their real work. Sensible individuals!

Major Forres.—This gallant gentleman having demanded his dismissal from the Argentine army, because recently stripped of his command, has been cashiered, with permission, however, to wear the uniform, which amounts to a practical joke.

Fresh News.—Last night's National announces the return of D. Caudido Barreiro to Asuncion, from London. We had the pleasure of seeing this gentleman last year in his native city, where he arrived towards the close of 1863.

The desert breeze.—This is the name of a new line of coaches to Navarro and Bragado.

March 14, 1861. Patacons opened this morning at a very low figure, 29 05, but ran up immediately to 29 20. This is regarded as a sort of trick of the bulls.

Nuisance.—The crowd of carts and bullocks in Calle Chibucto always standing there is something frightful, and it requires no small amount of nerve to pass within reach of the heads of these animals.

Locusts.—There seems to be, what some people call a judgment upon this country, for scarcely has the 'seca' passed over, leaving its marks upon us, than we are visited by some locusts, which are putting the finishing touches to the work of their predecessor. We are as well off for plagues as was Egypt in times past. We have had the seca, elections, Indians, fall in paper

were sold at 19 15 to 20 20. For the end of the month there was a great scarcity of buyer, and sellers every-where at 20 15.

On Change to-day the great talk was the enormous amount of exchange drawn by one party for the French Packet.

We believe that per next English mail the Government will be takers of Exchange, as the interest on the English bonds has to be remitted.

The La Plata left Montevideo for England on the 11th inst. with a full cargo and passengers.

Wheat is looking rather dull, owing to the heavy arrivals from the rivers, but wools are very firm.

PRODUCE SALES.
