CAUTION TO SHIPMASTERS

Dangerous navigation at Martín García.

Captain... of the English brig Tyne, makes a serious complaint of the perilous and neglected state of the Martín García channel...

A sincere expression of thanks is hereby offered to Admiral Muratori, who generously lent a pilot and boat's crew to aid the pilot of the Tyne in passing the most dangerous rocks...

Now, the captain wants to know whose duty it is to buoy the channel, and the commercial public have a right to insist on having a distinct understanding as to the matter...

Black and Sooty Deaths

During the Irish famine a creature's jury had the courage or timidity to return a verdict, if not a distinct verdict, in the English prime minister's name...

Many people have been stricken down by fever within this last fortnight, and the heat is set down as the cause; but the thousand fold vapors and miasmas, which assault our senses at every street corner, are the artillery of death...

EDITORIAL TABLE

The monster 'picnic' is the talk of all town. The affair passed off very well, with the exception that some one forgot the mustard...

The English packet, we hear, will take home this trip many well known residents, with their families. We wish them all a pleasant voyage and speedy return.

The news from the camp is alarming. Shepherds state that if this month closes without the rain, the whole country will be ruined. The young grass, which after the rains in February sprang up so quickly, is now almost completely burnt down by the scorching sun...

It was currently rumoured through town yesterday, that by private dispatches received from Salto, it was known that Flores was completely deceived. He had been told that the soldiers were in the place as usual...

The latest novelty going is the new dried fish business, which 'Tribuna' proposes, in yesterday's number. The editors of that 'picnic' journal state, that it is a most ridiculous scheme...

For some weeks the state of Calle Defensa, near San Carlos Church, has been such as could only be seen in Buenos Ayres, in a complete impasse to traffic, and exposing pedestrians and cavaliers to serious injury...

Yesterday our patio was decorated with Irish flags, and several friends came in to congratulate us on our return. The 'Ferro-carri' states that Sr. Gonzalez is about to contract a loan of million dollars; but this is not likely, as he should have heard something of it if intended.

ALARMING FACTS.

It may be recollected that during the Russian war the Allies, finding the capture of Sebastopol a rather tedious and difficult matter, various propositions were made to Lord Raglan and General Plevna to blow up the place, etc. It is now ascertained that the Russian war, there was one which attracted particular attention—namely, to poison the air by means of balloons filled with noxious gas, and thus make a clean sweep of every living being in the place.

Clean water should be supplied, no matter at what cost, and whether Dr. Tregidors or the English lost the plan or not, others should be made, and the citizens freed from that perilous stuff called river water.

The water-closets should be under the supervision of regular inspectors; some of the finest houses in town are unfit for residence owing to this horrid nuisance.

If these measures are taken in time, we may yet live a few years longer, but if the city is to be left as it is, half the population will shortly be murdered by the Municipality.

LATEST FROM MONTEVIDEO.

The 'Reforma' of the 15th and 16th contains some particulars of the more moves (?) of the belligerents.

Colonel Ezaña writes from the Puntas de Yi, 10th inst., as follows:—'Since December 20th, we have been constantly marching to no purpose; yesterday and to day we made forced marches, never unloading our horses, but these wood-rangers (the rebels) not only decline fighting, but keep clear of our skirmishes. Last night we slept not, but continued the chase, sighting them at daybreak, but they again cleared out, and our horses are beaten up, without our ever having got closer to them than a league and a half. Spies report Flores' army at 600 or 700 men, which, with his scattered groups, gives a total of 1200 rebels.

Letters from Salto, 8th inst., reports that the camp is now in a deplorable condition, both from the awful drought, and the numerous bands of marauders; the latter are set down as Flores' partisans, but in reality rob and murder on their own account, and carrying their rendezvous in the woods, and a band of 14 horsemen, under one Gambla, seized a soldier in the suburbs of Salto, and carried him off. Saldaña, with 150 rebels, is at Palomas, and the rebels of Salto have not even got to their quarters. The correspondence found on Vasas proves that the cannon sent to Flores belonged to the 2nd Argentine Regiment stationed at Martín García, and was conveyed to the Eliz by our war-steamer 25 de Mayo.

Brigands intended Mercedes (9th inst.), and one fell into the hands of the police. Waldino Urquiza and his corps (50 men) were to leave for Paysandú, in a sailing vessel, on the 10th. Caraballo and 200 rebels appeared at Punta de Yelcho on the 7th. The Oriental army passed Escado on the 9th, and Flores crossed the Yi in direction of 'San Joses, arriving at Carpintería on the 10th. The troops gave up the chase, and were about to return to Santa Lucia chica.

A French Brigadier, named Thomas Elvener, and a Spanish mercenary were assassinated at the house of the former, near Guadalupe, on the 10th inst., by a band of ruffians wearing hats with the initials of Flores' escort. The women saw them stabbed and their throat cut, after which the miscreants exchanged hats with their victims.

Baron von Dittlich, Minister, arrived by last post. Francisco Fernandez, convicted of desertion, was sentenced by court martial to four years' service in the Artillery. He married the daughter of the late General Senators, Castillo and Basañez, have returned to Montevideo. Dr. Carreras is expected soon. General Moreno is expected for the end of the 10th. Trillo is named Chief of Salto. Sor. Marmol arrived per Santiago, and will delay a few days before going on Rio Janeiro. The Italian steamer Fulminante gave a banquet on Victor Emmanuel's birth day.

What municipal it there who allows his family to drink river water, or even attempts to have it analyzed. It is the shocking deplorable state of the public cemetery called the 'Cementerio de los Negros' that has recently proposed to save the ashes of our friends and relations from the unwholesome treatment which is daily occurring.

And that of our country is the cleanest part of our houses, i.e., the water-closets.

Were Cobbett in Buenos Ayres, he would probably denounce the members of the Municipality names which possibly they deserve. But we cannot use such strong language; on the contrary, we believe that the Board of Municipality is composed of a set of exquisite gentlemen, who are better fitted to spend their evenings in the splendid saloons of the Club, than in the common hall in the Corporation-rooms, dictating measures to save the city from infection.

Who has ever yet seen one of our water-closets, excepting the market, or calling the attention of the board to the scandalous condition of the stalls, and the quantity of rotten vegetable matter which it exhales an effluvia capable of poisoning a city of ten times the population of Buenos Ayres!

What municipal it there who allows his family to drink river water, or even attempts to have it analyzed. It is the shocking deplorable state of the public cemetery called the 'Cementerio de los Negros' that has recently proposed to save the ashes of our friends and relations from the unwholesome treatment which is daily occurring.

And that for the water closets or 'communes,' who is there in this city who does not know their filthy condition.

RIO JANEIRO STOCKS.

Feb. 20th, 1864. The Don Pedro railway has made a profit of 10 per cent. The Gas Co. has declared a dividend of 30 dolrs. per share.

LOCAL EVENTS.

Signs of the Times.—The old Metternich said, 'after in the deluge.' A building, a law was passed, and the Government of this country, after the engagement, and carry out the law, no matter at what inconvenience. When the last session of paper was made the Government of this country, after the solemn assurance that it should be redeemed by the burning of the extra duties. To make the matter still more distressing, a law was passed, and the Government of this country, after the solemn assurance that it should be redeemed by the burning of the extra duties. To make the matter still more distressing, a law was passed, and the Government of this country, after the solemn assurance that it should be redeemed by the burning of the extra duties.

down Calle San Martin, he stumbled over an ugly mottled pile of paper dollars; he was about to pick up the greasy pile, when suddenly recollecting that success were 37, he kicked the obstacle into the street, where it was soon trampled by the horses, &c.

Highway Robbery.—Two nights ago, so says the 'Publicista,' when riding on the road to Las Flores, was attacked by three Gauchos, knife in hand, who robbed him of his horse and clothes, leaving him with Theodore Hook would call a 'birth-day suit,' to find his way to the nearest quints. President Mitre, in his late eloquent speech, mentions the dangers that, but a few short years ago, beset the traveller from London to York, arising both from beastly roads and the gentlemen of the path who were their revenues from passengers. He might very easily have sketched a touching picture from nearer home. For besides braving all the risks of being choked by a perfect sinnoo, one would require to be a regular ambulancing army of six-shooters and blunderbusses.

Montevideo.—Early on the morning of Monday last, three covered ambulances entered Montevideo with wounded troops from his army in the field.

Sheep.—One firm in Buenos Ayres advertises for sale, in different parts of the camp, 105,000 sheep, in lots varying from 2,000 to 20,000, so that all classes of purchasers can be accommodated.

The Greatest Plagues in Life.—'The Nacion Argentina' has the following article on pests, which we humbly offer as a sop to Cerberus, the outraged feelings of some of our country folks. After stating how difficult it is to obtain servants, either good, bad, or indifferent, it says:—'We know several families of either or nine persons, who remain with folded hands, and rather than go as servants, will live on charity. Their constant complaint is that foreigners are taking the bread out of their mouths. But this is how the case stands.—The foreigner, as soon as he enters the country, makes a point of looking for work of any kind at once. The foreigner is sober, hard working and active, whilst our countrymen are generally drowsy and lazy. If a native person be engaged, he spends the greater portion of his time in sucking mate, taking siesta, or rolling up his eternal cigarette. The foreigner, on the contrary, breakfasts before the sun is up, works during the whole day. The former is amusing himself whilst the latter is working, and so in all classes of domestic labour.

Great News for Sheep-farmers.—As the rains intended for the Southern States of America have been stopped from going to their original destination by the British Government, they are likely to be sold cheap. We would advise our camp friends not to allow this opportunity to pass unimproved. Great care has been bestowed upon their breeding, and the lucky purchasers will be well repaid for their outlay, if not in wool, by being able to fleece their neighbours in such a profitable manner that no Argentine Juan can punish them.

CHANGES.

Patrons are jumping up and down like a piece of India rubber; they opened today at 29 5/8 but the bears got possession of the speculation rail, and notwithstanding the fact that the bulls down came specie. At half-past one o'clock Patrons were selling at 29 3/8, but in half an hour afterwards they closed at 29 1/8. The Bank had talked of meeting at the Bank but that came off, and people say that there is a split up in a certain quarter. Without saying anything unnecessarily severe respecting the Provincial Finance Minister, Sr. Donnuquez, we feel bound to remark that it is generally believed he is not the proper man for such a place. The present movements of prices is mainly attributable to the divisions and contentions between the ministers, for there cannot be the remotest doubt as to the beneficial effect a resumption of the monthly burning would cause in our money market.

The report that Minister Gonzalez is about to make a loan of five millions silver dollars, seems to be incorrect, as it is not at all probable that the loan would be taken as long as Article 48 is in its state of.

The plan of the matter is, that hereafter it is essential Finance Minister should be able to stand up to his engagements, and carry out the law, no matter at what inconvenience. When the last session of paper was made the Government of this country, after the solemn assurance that it should be redeemed by the burning of the extra duties. To make the matter still more distressing, a law was passed, and the Government of this country, after the solemn assurance that it should be redeemed by the burning of the extra duties.

PANAMBU.

People just arrived from the interior of the camp, state that Atanasillo Saldaña is camped at the Puntas de Laureles, with a force of 200 men, and that Flores was defeated by the Government army.

Government had ordered the steamer, Villa del Salto, to be delivered up to her owners—Defensor de las Leyes.

SAVINGS BANK
BANK MAU&C^o
 No. 103 calle de Cangallo. —
 BUENOS-AYRES.

The immense advantages of Accounts Current are now so generally felt, and appreciated in the City of Buenos Ayres, that there are very few banks in which they place their money.
 The Bank of Mau & Co. in Montevideo has already provided for the working class in this city a safe & profitable depositary for their savings.
 The sums deposited in that most important institution are daily increasing and already reach a very large amount.
 These advantages have no hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out to interest, thus providing themselves with a reserve fund in case of need, sickness or old age, instead of spending them in the immoral gambling, in lotteries and other frivolities.
 The Bank of Mau & Co. of this city following the example of their fellow bank in Montevideo now offer the same facilities in this city and will open on the 1st October a "Savings Bank" at No. 103 Calle Cangallo from 9 a. m. to 3 p. m. on week days, and on Sundays and holidays from 10 a. m. to 12 m. for the reception of the savings of the classes already mentioned.
 The depositor is permitted at any time to withdraw the whole or part of the sum deposited, in the former case the interest will be calculated up to date.

The Bank of Mau & Co. is sufficiently known to the public by the benefit derived from the course of its operations which are regulated on the strictest and soundest principles and always directed to promote the general welfare.
 The Bank of Mau & Co. are also resolved that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.
 Buenos Ayres September 19th 1863.

 An ever-watchful and constant supervision, and a strict maintenance of order and propriety, are a sufficient guarantee for the morals and behaviour of the pupils as carefully attended to.
 The different branches taught in the English Grammar School comprise the English, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Book-keeping Instructions.
 Extra branches, such as Latin, Mathematics, German, Music and Drawing, are taught by special masters.
 The attention of the English Grammar School, in one of the most delightful Junias of the Calle Larga de Barraos, at every part of the city, is one of the most healthful and picturesque of the environs of Buenos Ayres.

English Grammar School, Calle Larga de Barraos.
 Don M. Pongercard, (the London University College).
 This Establishment, which from its foundation has been patronized by the principal British families of Buenos Ayres, is an exact reproduction of an English School, where a sound commercial education combined with the acquisition of the French and Spanish languages is imparted to the pupils, and based upon the same system as in all first class European institutions of the kind.
 An ever-watchful and constant supervision, and a strict maintenance of order and propriety, are a sufficient guarantee for the morals and behaviour of the pupils as carefully attended to.
