FRIDAY, APRIL 29, 1864.

THE YERBA MONOPOLY.

Some few weeks past, when the Cruzo and Cocio question was less absorbing than at present, there appeared in the 'Nacion Argentina' several commented articles signed M. Pelizza, respecting the monopoly of the Paraguayan Government in the yerba mate. These communications caused no small attention in Paraguay, and elicited some very pungent replies in the 'Semanao'.

First, because the Portenios wish at Paraguayo cheap. Second, because any project hostile to the Paraguayan Government or the industry of the country, no matter how ridiculous or absurd will meet with a popularity in Buenos Ayres which will sweep down all opposition. That the Portenios should wish to have cheap yerba, we are by no means surprised, but that they should seek to force the Paraguayan yerba into their markets at their own figures is as alike preposterous as it is absurd.

The Argentine Government is blessed with the same fertile soil, endowed (in theory) with the freest institutions, we confess that it is a matter of surprise and wonder to us that a people who are so anxious to have cheap mate do not produce and fabricate it themselves. Ob, but it is a hateful monopoly of President Lopez's that the Portenios, and cannot be tolerated—monopolies are illegal monopolies are tyrannical—monopolies on such an article of consumption must be abolished. That monopolies are illegal we deny; on the contrary they are enjoyed in Europe by some of the most civilized nations. In the long history of international negotiations, we challenge this mythical M. Pelizza to show us an instance of where one nation forced upon another the surrender of its monopolies.

France has also her monopolies, as every one who uses her tobacco well knows. Spain has her monopoly in salt. Austria, Russia, all the greatest nations on the earth hold their monopolies, even the North Americans, before he war broke out, had their monopolies, the fisheries along the whole North American seaboard, were monopolized solely by American bottom, and vessels of other nations were obliged to pay tribute to the Government. If there were in Europe and North America this simple, easy and effective mode of supporting the Government—monopolies—were, and to this day are, sanctioned and tolerated, we certainly must say that we are surprised that the yerba monopoly in Paraguay is so much abused.

The history of commerce, affords sufficient proof of what M. Pelizza's proposed tax, or rather fine on Paraguayan yerba, will result in. It will not lessen the consumption, because only the wealthy use this description of yerba, and the dearer it is, the more fashionable it will become; it will, no doubt, afford a fresh revenue to an at present rather in overhissed Government; but the tax will be on Argentinians, not Paraguayans, and unless the Portenios themselves go up and take the yerba out of the Government stores, we doubt if ever they will succeed in getting it at the price which they could desire.

Wanted Saladeros. We question, if there is a country in the world where trade is more unmanaged, or commerce worse regulated than in the River Plate, not that we mean to make any wholesale charges against the foreign mercantile body, which, we are proud to say, is composed of men of the strictest rectitude and most honorable principle, but that we perceive in Buenos Ayres some branches of trade are utterly exhausted by competition, whilst others are utterly neglected and forgotten.

not a body of merchants almost too numerous for the size of the place! And as for capital, have we not now almost as many sovereigns and francs in circulation as paper dollars? Viewing the matter in this light, we confess we are surprised that some of our English merchants have not invested a few thousand pounds sterling in building a saladero, where cattle are superabundant and labour cheap.

EDITOR'S TABLE. The Sheridan law-suit has at last terminated. We have not heard the terms of arrangement, but congratulate all the claimants on so happy an issue after many years of unprofitable litigation. It is believed that Mrs. Welleman née Sheridan comes into possession of the estancia.

The garrison of the city is at present strong: the Military legion 200 rank and file, the 2nd batt. 850, and another infantry battalion 200, making up 850 men. But for the election riots, we could spare one-half to strengthen our frontier.

The recent Indian invasion near Azul has alarmed all the Southern districts. The savages overtook an Italian officer with despatches and murdered him: a native officer narrowly escaped the same fate, being stripped of everything even to his shirt, and set loose in the open camp to find shelter as best he could among leagues off. The tribe is said to be Calafucura's, and was probably aware of the split between our Governments, which guarantees such impunity to robbers of all color.

FLORES' MOVEMENTS. The Reforma of April 27th has let ters from Salto 23rd inst. "On the 19th, Flores crossed the Rio Negro at Quintoros and Toros, with an army of 800 men. Information was received to day from Paysandu stating that he had again gone North, his troops not wishing to go, South. As usual we hear of bands of 8 or 10 men deserting from him, and committing awful atrocities and carrying off everything

in their route to the Brazilian frontier. In the department of Salto, Colonel Urquiza, who lately gained a triumph at Constitucion, commands 300 men, of whom 60 are South of the Arapay, cleaning the district of the filibusters. To-day, Colonels Lengua and Piris started for Montevideo." Capt. Egueroa writes from Punta Ceibal, 11th inst. that he made a reconnaissance on the Sarandi the day previous, but found the rebels 120 strong under Castro: his force being only 30 he retired by the Daiman, with 100 horses.

Waldino Urquiza communicated, 22nd inst. Punta San Antonio, a trifling advantage over the rebels, killing one, taking two prisoners, and 50 horses with some arms and clothing. We have news from Sant Ana on the Brazilian frontier, March 22nd, that two Italian officers (named Rochebon and Garettes) of the B. Ayrean army came thither to seduce the Government soldiers, and succeeded in taking three: The commander sent a body of 14 men in their pursuit, overtaking them at Tacuambó: the Brazilian deserters were punished, and the Italian officers put in irons.

The fortifications at Canelones are going on actively: ramparts were raised, 5 feet thick, and a line of circumvallation has been made with a trench six feet deep. The Government army is quartered at Maciel, and that of the rebels five leagues off, near the River Yi. The Comercio states that General Moreno, along with Munoz, Rodriguea and Aparicio were comfortably stationed on the banks of the Maciel, three leagues from Durazno. Flores was at Villavieja ready to march for Tejera. His vanguard, under Goyo Suarez, was threatening to cross the Yi in Polanco; should he succeed in this movement, he would likely march for Tierra de Minas.

A HIT TO THE WAR-OF-1808. In this province we have a law which condemns vagos, Infrances, carteros, &c., to military service from two to four years; it also authorizes the justices of peace (in the camp) to try summarily persons accused of theso offences. To be enabled to go through

the case with duo rapidity, they (the justices of peace) are furnished with printed forms, which are filled up by inserting the man's name, the offence committed, the term, &c., with which document he is sent direct to the nearest depot. We have 52 partidos in this province, consequently 52 judges furnished with ample power to try and condemn offenders of this class; how many, might I ask, have been sent to the frontiers during the first quarter of this year? I confine the question more especially to this year, as it is supposed by some that the cooked and raw dinners lately come into fashion have caused a relaxation in this law, with the intent to make it, by the end of the year, a dead letter. The proposed plea, that offences of this kind are less frequent, cannot be put forth with any regard to truth, for the testimony of any resident in the camp, native or foreign, will prove quite the reverse.

IMPORTANT FROM CORRIENTES. The late Mutiny. Fossil oysters from Parana. Several of the mutinous soldiers have made their submission to Governor Larzana, who has, we believe, pardoned them. Of those forced to embark at Corrientes for Rosario, seven or eight escaped in a whale-boat. The cotton crop is being picked, and several dealers have come to B. Ayres with the view of making contracts: the average price can hardly exceed 3 silver reals (18d.) per lb. ginned, delivered in this city, although the planters ask enormous figures. Deputy Igarzabal came down by the Paraguayan steamer. In the collision of the Salto de Guayra with the schooner, a young lady passenger fainted, but was revived by throwing water in her face.

NEW DEPUTIES SWORN IN. Yesterday, at half-past one, the solemn ceremony of swearing in the gentlemen elected by 2 parishes and refused by 10, as Deputies for the province, came off at the Chambers. There was a large number of persons in the house, but no disorder. The gentlemen who took their seats were D. D. Ignacio Carreros, Carlos D. Amico, Dardo Reoa, Isaac Blanco, Pedro Naon, Manuel Quintana, M. A. Montesdeoca, Dr. Kier, Luis Martinez, Augustin Saavedra. The Cocio members did not attend, but there were 13 Cruzos present. It seems this is far from making a quorum, but really, seeing that the Municipality and all the public bodies fail to make this most difficult affair, it is well dispensed with. After the swearing-in, the remodelled Chamber proceeded to elect suitable officers. Those on whom such honorable distinctions fell were: President—D. Ventura Martinez, 1st Vice—Dr. Manuel Quintana, 2nd Vice—D. Ignacio Carreros. The Cocidos say there are more Vices than the above, and Dr. Aguerro swore (instead of fulfilling the duties) never to enter the threshold. This was unpatriotic, for we must have Deputies as well as sermons. The Chamber was almost anxious to keep him against his will, but the turning vote (14 to 12) gave him permission to resign. So ended the function, happily without rioting.

LOCAL EVENTS

The Transandino Railway—The Rosario papers have several articles extracted from the Chile newspapers on this important subject. Chile, to all appearance, is to have all the trouble and expense whilst the Argentines are to reap the benefit.

The Banda Oriental—The Tribunal has a perfect bagful of nuts to crack, on the subject of the barbarity of the Blanco Government in the case of a Sor. Bery. It is such an unusual thing for the Blancos to lay themselves open to similar charges, that the Flores papers cannot make too much capital out of it; and if, as in this case, they can get one or two signatures, why their fortune's made.

The Boca Railway—This railway is progressing most rapidly; the most activity is displayed between the Yuelta de Rocha, in the Bachelua and the Ensensada. The framework of a station-house is already run up, and the rails and other plant which arrived last month, have been deposited in the Boca-Nacional.

The Police—The 'Nacional' has at last opened its eyes to the startling fact that the so-called police are not worth their salt; it makes the startling discovery that the people pay, and pay heavily, for the luxury of seeing a duty, ill-looking lot of men lounge about the Cabildo. In the time of peace they are expensive pieces of furniture, and in disturbances they are doubly so, as the outrages committed by them are frightful. We trust that our native colleagues, after witnessing the scenes of last Saturday, will turn their attention a little more towards trying to remedy this nuisance.

The Southern Railway—The Danish brig Dan has arrived here from Grange-mouth with a cargo of iron, iron rails, and other railway plant. It is really pleasing to us to see this go-ahead perseverance and industry of the old Anglo-Saxon race; and these qualities shone out all the more brightly at present, when we are plunged into Cymrian darkness of elections and riots. Hurra for the pickaxe.

Corvets—Two of these public pests have been sentenced to eight and five years respectively at the public works. The fellow who has been sentenced to the five years' term is Juan Garcia, has been convicted of manslaughter. It would be a great deal better to hang such fellows than pay for their keep, and thus prevent the accident of manslaughter becoming fashionable.

No use of crying over Spilt Milk—The origin of this frightful slaughter of woodcutters in the Gran Chaco, by the Indians, was, as might be supposed a woman. It appears that a stupid hussy in Corrientes let drop a jar of milk, and with two feminine tactics (without consulting the result) accused the Indian of having broken the pitcher. Her master seized the poor innocent Indian and shot him through the head. This appears to have exasperated the Argentines, and they came down, like the wolf on the fold, and massacred all the woodcutters, as already reported.

San Nicolas—The Juez has forbidden on Juan Bocr, editor of the 'Amigo del Pueblo', to leave that city, until the suits which have been issued against him be settled.

Parana Elections—The 'Litoral' of Parana says that the elections of Parana have been approved of, in spite of the protests of the citizens of that place.

South American Police—To student of South American prints, the question most frequently present itself, who commit all the murders—is it the police? It really appears as though the mere fact of a town having a so-called police is a sufficient cause for robberies and brutal murders being perpetrated, for we have frequently noticed that as soon as any place which was quiet enough before, is cursed with those men, murders become rife. The Parana papers state that "in less than a week we have heard of five or six people wounded, and one more who has been taken to the hospital mortally stabbed. These all owe their origin to fights in the public streets."

Paper price of ounces, 16 1/2 mcs. Specie suffered a serious decline today. Patcoques opened at 29 75, and closed at 28 60. Total cash sales, 74,576. For Saturday the sales were very heavy, it being the end of the month: 167,800 were sold at from 28 75 to 28 60, but at the closing hour of the Bolsa they stiffened up a little, and closed firm at 28 65. For the end of May, 52,000 were sold at 25 65. There is a general feeling on the Bolsa that specie has not yet touched bottom, and every one seems to prefer selling to buying. The sudden fall in specie is attributed to the loan negotiated by the Finance Minister with the Merchants. On the Bolsa it is said

that four millions of paper money will be burned in the first days of May, and that over 32 millions will be burned during the year. The terms of the loan are very fair, but the interest (3 per cent) we regard as high. We shall publish in a few days full particulars respecting this loan, which, we are happy to say, has not been confined to native merchants.

Nothing can prove more clearly the great confidence which merchants have in the stability of President Mitre's government than the fact that, although it was said there would be a row in the city to-day on account of the swearing in of the obnoxious Deputies, specie, instead of going up, actually fell, verifying the old saying that the man who speculates in Buenos Ayres never always goes by 'contraries' to win.

The Salto arrived from Montevideo to-day, bringing us later dates, and also the rather startling news that the Sautage was not in Montevideo. We have heard of no fights to-day, and believe that cargo is very scarce. Conversely, we notice a good deal of produce coming down; and last, not least, the oranges are beginning to arrive.

Money is not so tight, although there is a healthy demand for both paper and gold. It is said that one of our private banks has joined with the merchants in the loan to the Government, and agreed to advance two hundred thousand patacons.

SAVINGS BANK
BANK MAU & CO.

No. 103 calle de Cangallo. —

BUENOS-AYRES.

The immense advantages of **Accounts Current** are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence.

The Bank of Mau & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depository for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a *retire fund* in case of need, sickness or old age, instead of spending them in the immoral gambling, in lotteries and their rivalries.

The Bank of Mau & Co. of this city following the example of their
