CONTRIBUTOR TO THE STANDARD... \$50 PER MONTH... ADVERTISEMENTS... Not exceeding five lines inserted three times for \$5.

TO CORRESPONDENTS... No notice can be taken of anonymous communications... by the name and address of the writer; not necessarily for publication, but as a guarantee of good faith.

The Standard.

All that andem all veri non uolunt dicitur... Cincro.

SUNDAY, JUNE 10, 1881.

Editorial notice: Fine words are proverbially cheap, and if we would believe the blarney...

his return to England, the advantages offered by Mr. Whelan's offer... We would call the attention of our Argentine readers to the impetus of leaving all the glory of their grand national undertaking to foreigners.

PUSHES FROM PARANA.

Mr. Lorenzo Myers of Parana city has made a discovery which we have no doubt may prove valuable to scientific investigation. He has found two petrified substances much resembling the spiral joints of some gigantic monster such as the megatherium...

EDITOR'S TABLE.

To-morrow, at three o'clock, the meeting is to be held at Mr. Kirk's residence to raise subscriptions for the United States' Sanitary Committee. We hope to see a good attendance.

The Cavalieri failure has given rise to some nice points in commercial law, which, by common accord, have been decided in 'the Standard' office. A communication was sent to us to-day on the subject, but as the contents were rather personal, and contained charges against parties above suspicion, we cannot allow 'the Standard' to be made a police officer's charge sheet.

And, if we are constrained, we conclude that these things once done have been covered up by the operations of Nature, it may have been either by the slow and gradual deposit of successive layers of earth, or by the action of volcanic appearances.

Mr. Nicholson has requested us to call attention to his Phintasmagorical lantern, which is advertised for sale in another column. It is the only one of the kind in the country and a great curiosity.

The North British and Mercantile (Agents, Pater, Stokes & Co.) insurance returns show an increase of 40 per cent. in their business last year over 1869; their policies numbering 1071 of a gross amount almost one million sterling.

REVER PLATE STEAMSHIP COMPANY.

So much attention is now paid in London to the River Plate, that every week new steam companies are starting. The following will no doubt amuse and interest our readers:—A prospectus has been issued of the British and South American Steam Company for a monthly line of screw steamers of 2,200 tons and 500 horsepower.

The steamer 'Paraguay' we hear is in Montevideo; but as she left England on the 24, her news has been anticipated. Our colleague, the 'Tribuna,' has fallen into a horrible blunder, respecting the instructions of Lord Pakenham to Admiral Dalrymple, which were extracted from the London papers and published yesterday.

What becomes of the money raised for the Sanitary Committee? The following extract from a Washington paper will be found particularly interesting by American readers, especially at the moment when a movement is being made here in furtherance of the object it refers to.

The water schemes are again before the public. We think His Excellency the President selected a rather important time for making such matters, as with our streets full of mud and constant rains, the Congress men may very readily believe that we have enough of water, and probably a little too much, for the convenience of the citizens.

And, if we are constrained, we conclude that these things once done have been covered up by the operations of Nature, it may have been either by the slow and gradual deposit of successive layers of earth, or by the action of volcanic appearances.

The Commission supports twenty-five soldiers' homes, etc., scattered over the whole field of war, from New Orleans to Washington, including Vicksburg, Memphis, Cairo, Fort Snelling, Nashville, Louisville, Washington, &c. Twenty three hundred soldiers per day are taken care of in these homes. Multiply 2,300 by 265, and you will get a faint idea of the number of men thus relieved.

We have received a letter from Liverpool inquiring about Mr. William Trilivny, supposed to be a native of Dublin. He was married in Liverpool, and came to London on the 13th inst. He is requested to send his address to Mr. Bliss, calle Cangallo.

And, if we are constrained, we conclude that these things once done have been covered up by the operations of Nature, it may have been either by the slow and gradual deposit of successive layers of earth, or by the action of volcanic appearances.

The three-week competition will probably be to the credit of our party or the other out of the field, and that the party so driven out is likely to be the one least willing to wait three or four years for dividends on its capital.

We have received a letter from Liverpool inquiring about Mr. William Trilivny, supposed to be a native of Dublin. He was married in Liverpool, and came to London on the 13th inst. He is requested to send his address to Mr. Bliss, calle Cangallo.

To the Editor of the Standard:—Sir—Seeing from the prospectus of British and South American Steam Navigation Company, as well as from the letter of Mr. Lamport, which appeared in your City article on Saturday that both parties are ignorant of the fact that the River Plate Steamship Co. has been running regularly for the past ten months a line of powerful steamers from this port to Montevideo and B. Ayres direct, we have to hand you a note, at first, of the steamers which form our line, and which will show the public that the berth for the River Plate is not so entirely unoccupied as might be inferred from the prospectus and letter above referred to.

We remain, Sir, Yours respectfully, W. J. Lamport.

Agents for the River Plate Steamship Company, 18 Chapel Street, Liverpool, April 25.

NEWS FROM MONTEVIDEO.

The Montevideo papers report the arrival of Messrs. Thornton, Elizalde and other Commissioners at San Jose, where the garrison and population turned out enthusiastically to meet them, and the Commander ordered a salute to be fired, as had been done in all the towns through which the Commissioners had yet passed.

ITALIAN OPERA.

On Friday night 'Marta' was given for a fourth time, and the public is far from being tired of this beautiful opera. The house was pretty good, holding about 1000 persons. Mico, Briol never acquitted herself with greater éclat, and her rendering of the 'Last Rose of Summer' was even superior to any former occasion.

LATEST ABOUT MR WELLS.

The report has expressed to us his willingness to make an ascent on July 7, or give a lecture about ballooning, in aid of the American Sanitary Committee: in the latter case, he would give experiments with model balloons inflated with gas, having dolls seated in them, &c. His offers also to give plantsmanorial and nautical exhibitions in aid of the British Hospital, such charitable ideas will, of course, meet with general approval.

THE CHEVALIER FALLURE.

Genlente, We should like to ask those persons who pretend to say that the granting of a 'transcendencia' constitutes a delivery of goods, whether the same rule applies to lumber, coal, salt, and other bulky articles, which are usually sold on board, the purchaser paying the duties and expenses of discharging. In order to enable him to do this, the 'transcendencia' should handle him immediately on the site being made, other wise he would not be allowed to pass his goods through the Custom-house, and yet the delivery is not made out and preferred for some weeks afterwards, and the credit of the sale does not commence until then, according to the custom of this place. With regard to lumber, the delivery is not considered as having taken place until the vessel has been unloaded, and the receipt of the instrument thereof at the yard

of the purchaser, a period of a month, and more sometimes elapsing, between it and the time of purchase. Certainly, this proves most conclusively that the passing over of a 'transferencia' does not imply a complete delivery of the merchandise or goods it calls for."

**Central Argentine Railway.**  
We have great pleasure in notifying the public that we have been named agents for the collection of subscriptions to the Argentine Central Railway.
