The United States Sanitary termed The United States Sanitary Commission: we have assembled here day, gentlemen, at this distant spot, to assist that Commission. Will is not be grateful news for the members of that Commission to learn that their friends and their fellow countrymen here have not forgotten them in this hour! Gentlemen, I will not detain you with any prolonged remarks, but I wan pleased to think that, wafted on the breeze to dur native land are borne the tidings of sympathy and assistance from

Americans and their friends in the Argentine Republic."

Mr. Jacobs then rose to move that a Secretary to the meeting be appointed: be proposed Mr. Ayres. Mr. Helper, U.S. Consul, seconded the motion.

Mr. Jacobs then proposed that some widence be read to prove to all present the great unsfulness of the United States Sanitary Commission.

Mr. Gardner B. Perry, one of the gentlemes, who signed the requisition convening the present meeting, came forward, and said:—"Gentlemen, I have had, during my recent visit to the

Mr. Charles Zimmerman then rose to explain still further the great good which the Sanktory Commission was effecting. He read two letters, written by distinguished generals in the United States, army, testifying to the great advantages of the commission.

The Rev. Mr. Goodfellow said that he felt bound to confirm all that had been said, respecting the great good

that he felt bound to confirm all that had been said, respecting the great good which the Sanatory Commission if effecting. One of the principal reasons why they are able to supply everything so cheaply is, because all who set for the commission act gratuitously. A young man who had left this country for the purpose of finishing his education in the States, had written to him, but unfortunately he had left the letter behind him; he, however, would state from memory its contents. This behind him; he, however, would state from memory its contents. This young man had been employed by the Sanatory Commission; he had travelled through nearly all the Northern States, and everywhere he had received free tickets from the railway masters. His details, respecting the working of the commission, would form a most interesting chanter: all through the States ing-chapter; all through the States belonging to the North their agents

LATEST FROM SAN JUAN. By the last mails from the interior we perceive a long letter, with nothing in it, from this province, published in the ' Ferro-carril.'

Our readers will be surprised to learn that the latest news from the only mining province in the republic is that the editor of the "Zonda' refused to publish an article on Geology. We are quite surprised that the talented editor of the 'Ferro-carril' of Rosario would fill up his paper with such nonsense. We want to hear of Mr. Rickard and his mines, and the other mining caterprises in that province, not to be obliged to swallow a long rigmarole of recriminations on a science about which neither the editor of the ' Zonda' not his indignant correspondent probably possess even the radiments.

The last news of importance from Sau Juan was that Rickard was going aboad, and that the people were about to embrace sheep farming on a limited scale. We hope that some of the foreigners resident in San Juan will henceforth do us the favour to send us news of importance by each diligence, as the people of Buenos Ayres preserve

the greatest interest in mining matters.

If we are to believe report, some of these fine days gold in large lumps is to be found in some of the provinces, in large quantities. We believe that this is yet on the cards, and that when foreigners get well scattered up in the interior another California will be dis-

The revolution in Salta seems to have caused but little attention in San Juan. as there is not a word in the papers about it. But why is it that the 'Zonda' does not exchange with the 'Standard?' Verily there must be something rotten in the state of San Juan.

ROMANCE OF THE LOTTERY.

Last week a speculative housemaid. in the service of Mr. Gowland was induced to invest 20 dols., conjointly with a black man, in the Municipal Lottery, sarcastically called ' Beneficencia. Maryanne was for some days

that they might commit suicide 'en
agitated by the hopes and fears iccimasso, like Atar-gull's comrades.

The Pavon will be again placed on dental to such enterprises; nor could the everyday labours of domestic life distract her attention from the lucky number. Mechanically she dusted the drawing-room furniture : even when making the beds, her thoughts ran on the great prize, and 'what she would do with i',' if the golden apple of Hesperides should drop into her lap. How she longed to embrace these little lottery boys, if they would but bring her the happy announcement; and then in her mind's eye she saw visions of snowy flocks, and a nest rancho in the distance, with the pride of her heart mounted on a ' mancaron' and galloping up to the 'palenque.' As the day of drawing approached, her giment. He is brother to Col. Pedro C. anxiety redoubled, and at length her black friend had the satisfaction to announce to her that their joint investment had turned out most profitably showing a clear gain of 650 per cent. He handed her 150 dols. (paper), and remarked, that as money was of little use to him, she might as well take nother 100 cols., which he also gave her. Maryanne was not to say charmed with such disinterestedness, but as Virgil said, 'Timeo Danaos et dona ferentes,' she had vague suspicions, or, in vulgar language, ' bogan to smell a

APPALLING DISASTER IN NEW YORK HARBOUR

36 men scalded to death

A most terrible accident occurred in the lower bay on Friday afternoon, owing to the explosion of one of the hoilers of the United States gunboat Chenango, Lieutenant Commander T. S. Fillebrown. She was proceeding to the mooring buoys at the Horseshoe, for the purpose of correcting her com-passes, and was to have taken the iron passes, and was to have taken the for-clad Onondaga in tow this morning and gone to sea, Fortress Monroe being her destination. When opposite Fort Hamilton, at a quarter past four P, M, her port boiler suddenly exploded, blowing up the decks and severely scalding all connected with the The Pavon will be again placed on the Rosario route by the last of July, when her repairs, cleaning, &c., will be completed. The contractors who have her in hand are Messrs. Saunders, Hodge, and Marshall.

A laumentable accident is reported in the latter than the probably die. The United States revenue cutter Bronx, being in the vicinity, immediately re-paired to the scene of disaster, and proceeded to the Quarantine, where she procured a number of physiciaus, and took them on hoard the Chenauge to relieve the sufferers. The United States steam transport Tilley, Captain Bourne, from Alexandria, while coming up witnessed the explosion, and im mediately went to the Chenango's assistance, doing a great deal of good Also the United States steamer Rose, which was near at hand, rendered all aid in her power. The Tilley and Rose and the cutter Bronx took her in tow and brought her to the Navy York.

When the Chenango left the Navy Yard the yards of the North Carolina were manned by order of Captain Meade, and three cheers were given in compliment to the crew of the new vessel. The salute was returned by the sailors on board the Chenango, and the sailors on heard the Onemona, amidst loud and pro'onged huzza-ling the gunboat glided out into the stream and proceeded on her voyage has the hay. Hardly two hours had clapsed from the time of her departure when news of the shocking disaster was received at the Navy Yard, producing the most intense excitement among the seamon, and casting a deep gloom where all had been life and activity. Thirty six of the crow have since died.

The Chenauge was a side wheel steamer, known as a double-ender. She had an armament of ten guns, and was built by Joro Simonson, at Greenpoint, F I., and launched in 1868. The following are her dimensions:—

CAMP TYRANNY

JUSTICES "A LA RUSSE"

The 'Tribuna,' 'Pueblo,' and French paper, are full of complaints about the Criminal Judge of Mercedes. It is amusing to see how surprised our colleagues are at an iso. lated case of undue severity. The judge who is called Criminal, has not done anything to scandalise our judicial board. He merely stopped the mail-coach and imprisoned the mayor. domo, because a friend in Chivilcoy had forgotten to write to him (vide Le Progres.') Far from blaming the judge, we return our sincerest thanks that the ambulating Frenchman was not at once hanged, drawn, and quar-tered; good heavens! he little knew the avenging powers of a camp judge. It may down the bay. Dr. Zarabia is a very nice man, and

quite worthy of the judicial body which he has now called into notice. We remember an Argentine Sonator observing to us that most camp justices were 'grandisines hijos de —— (which nearly corresponds to the term 'grandee,') and we are happy to find Dr. Zarabia bearing out our idea of the body.

Our remarks in this morning's paper upon the state of the money market were greatly spoken about on the Bolsa, and some brokers went so far as to say that the Standard was under Bull influence. Such observations, however, are only attributable to persons who cannot translate our motto at the head cannot translate our motto at the head of the paper. The money market of Buenos Ayres is in a rather critical state, owing to the recent failure of Civaleri and friends, coupled with the general belief that England is going to war. Any serious crisis in this market at present would lead to the most introduced to the couple when the couple were a serious consequences, here we are only jurious consequences, because the only subject of speculation—the currency—would at once depreciate. It is a delusion to term the transactions on the Bolsa as speculations in specie or paper money -it is speculation in the price of bread, ten and sugar. If stocks rise or fall at home, only those who deal in them suffer, but here in Buenos Ayres it is different, and if patacons go up, tea and sugar goes with it. Sooner or later a stop must be put to this nefarious fluctuation in the price of the ne-cessaries of life-M. Riestra's project nuld be passed.

There is no cause for supposing that any immediate crisis is at hand, nor do we think that we can be so misunderwe think that we can be so misunderstood, as to be open to the charge of giving any needless alarm; by no means; but as we are obliged to chronicle the state of the market, we must speak the truth. The Civallieri failure has had a very serious effect, and bill brokers find greater difficulty than usual in getting second class bills discounted; besides this, the private letters received by the merchants, per latt packet, were of a character to induce the greatest circumspection. Furthermore, the dangerous business which has been going on for the last 12 months, of buying in specie and selling in currency, must terminate budly.

These are the reasons which cause the uneasy feeling—which we notice—the uneasy feeling—which we notice—the substantially built houses 18 varas front s

the uneasy feeling—which we notice— in the money market. If the legislators of this country have the courage, the capacity, we may say the honesty, to set about and reform the currency, then many of those evils will be remedied; but if, on the contrary, year after year is to pass over hurning a page. after year is to pass over burning paper money, which is hourly becoming cheaper and more inflated, we must, some day or other, come to an unplea-sant wind up. It any better scheme than that of M. Riestra's can be introduced, then why not adopt it? We opine that it is the easiest, safest, and most feasible, and therefore should be

ssed. We are pleased to notice, the great mand which has sprung up for Nu-We are picased to notice, the great demand which has sprung up for National Bonds. \$20,000 'fuortes' were sold to-day at 40 per cent. cash. This is a good sign, as it shows that there increased confidence in the stability of the National Government; but these bonds should be put on the Bolsa and consted.

There are at this time many thousands of Confederate prisoners of war confined in the various forts and camps of the Northern States. A large proportion of them are wounded or sick, and all are in a state of destitution, the accounts of which, as given in private letters and in the newspapers, present a picture of human suffering, which has scarcely a parallel in modern times. The merest necessaries of life are wanting, and frequently the wounded prisoner has no raiment save that which is stark and stiffened with his clotted blood. Horrible is war is in all its features, assuredly it has no greater horrors than the long agony of the poor captive who, when the feverish excitement of the context is over, is left to the bitter charity of strangers and foes, without one friendly hand to soothe the pains of body or friendly voice to whisper hope and comfort to his despairing mind. These men, cut off from the assistance of their kindred or the protection of their. Government, have peculiar claims on the particism of their countrymen in Europe, and upon christian benevolence everywhere. They did not recklessly or from choice embrace the profession of arms, but in exchanging the comforts, and often the luxuries, of home for, the toils and hardships of a soldier's life, they obeyed a stern-sense of duty and the call of their country in its systemest need. An unusual proportion, also, of those that fill the ranks of the Confederate armies belong to the higher walks of life, upon whom privations, such as are endured by prisoners in the hands of the North, fall with increased saverity.

"The Southern Prisoners' Holief Fund is intended to mitigate some of these."

tions, such as are endured by prisoners in the hands of the North, fall with increased soverity.

The Southern Prisoners' Relief Fund is intended to mitigate some of these sufferings which cannot altogether be relieved. Within little more than a twelvementh, nearly 23,000 have been collected and expended in relief. The managers of the Fund are assisted in their efforts by self-devoted ladies in the principal Northern cities, who visit the sufferers and give them such aid as the principal Northern cities, who visit the sufferers and give them such aid as the freams at their disposal render possible. Of late the Federal Government has granted permission that this Sanataries work may be done openly. It is car gively hoped that all Southerners residing in South America will support the Eural to the extent of their ability, and its objects may recommend themselves to all irrespective of country or political convictions, who sympathise with the time of their fellow men.

Contributions will be received by J II Ashbridge, Treasurer, Walmer Buildings, Water Street, Liverpool; or in London, by Henry Hotze, Esq., 17 Saville Row, W.; in Paris, by H O Brower, Esq. 6 Rue Circulate; and Daniel Hubbard, Esq. 24 Rue Lord Byron.
