NORTHERN RAILWAY EXTENSION PROJECT

The Northern railway Co. through its representative, Mr. Henry Zimmerman, has petitioned the Provincial Legislature...

The prolongation might be made in three ways; to the Tigre canal; to the Pampa de Las Palmas; or to a port on the river Paraná.

The plan finally preferred is that to Campaña, this first port we meet on the Paraná, and distant 80 English miles from San Fernando...

The gain to public convenience would be very great, as passengers for Rosario and the upper provinces, instead of taking a boat to go on-board, in our inner roads...

Mr. Zimmerman, seems to doubt the actual returns of the line to San Fernando will be sufficient to cover the guaranteed net returns of 7 per cent...

We think he has made out a very good case, and that the Legislature will readily grant his petition. It is, however, evident that this is only the first step towards Rosario...

Mr. Orono, who introduced this law, very properly remarks, in a letter to the editor of the 'Nación'...

We hope that the law will be passed, but that the Government puts a rather high value on the lands in the department of Rosario...

The lever of steel, yet expended in the establishment of the Northern railway...

The new Santa Fe Land Law

So much attention is now paid to land in Santa Fe and Cordova, that we think our readers will peruse with interest the celebrated Oroño Land Law...

The new Land Law now under consideration is most ably drawn up, and reflects the greatest credit upon Sr. Oroño...

The Government is authorized to sell—1st. All waste lands. 2d. Land rented by Government. 3d. Lands simply squatted on...

Lands situated between the Carcaraña and the Salado, as within eight leagues of the principal rivers, shall be valued at three thousand silver dollars per square league...

All lands lying north of the River Salado, inside of the frontier line, shall be ceded to whoever thinks proper to settle on them...

We understand the Germans, of all foreigners, most patronise the Album, and as it is both cheap and deserving support...

The Production of Wool in the World

Last year a similar work was published, headed with the same title, which, however, failed to convey the author's ideas on the subject.

The mud, the dirt and filth of the streets of Buenos Ayres, baffles all description. The old inhabitants of Buenos Ayres managed formerly to keep the city clean...

Mr. Oroño deserves the thanks of every Argentine for taking the initiative in this matter. We hope to see the bill, with our amendment, passed.

PALLIERE ALBUM, No. 3

We must congratulate M. Palliere on his present number, which is much improved in lithographic execution...

A Halt on the Pampa shows in the foreground one of those barbarous but picturesque vehicles called 'carretas,' beside which the owners, a group of five gauchos and two women...

The production of wool has spread with the growth of civilisation, and where formerly it was limited in the Old World, to a part north of the Equator, and in the New World, to a part south of the Equator...

A Souvenir of Entre Ríos is the picture of a half naked gaucho mounted on a fine horse, who has just arrived at a miserable rancho composed of a few branches supported by some upright unshapen posts.

M. Palliere's pictures contain more instruction regarding these countries than all the quarto or octavo volumes yet published on the subject.

We understand the Germans, of all foreigners, most patronise the Album, and as it is both cheap and deserving support...

EDITOR'S TABLE

The 'Tribuna's' 'Mesa de Redacción,' or in other words, the new Editor's Table, which they have started in imitation of the 'Standard,' threatens soon to break down from the quantity of papers on it...

Dr. Velaz Sarsfield turns out to be the great opponent to our River Plate fowling. We regret sincerely that we had not time to read the charge and counter charge...

The first, refers to the quantity of wool in the world; the second, to the different quantities; the third, to its consumption.

Wool, and more particularly sheep's wool, from times remote, has ever been most in demand for clothing amongst all civilised nations...

The great care which has always been bestowed on animals producing wool, has been observed from the beginning of our days, and has sprung with our race and grown with our civilisation.

The production of wool has spread with the growth of civilisation, and where formerly it was limited in the Old World, to a part north of the Equator, and in the New World, to a part south of the Equator...

The last news from San Juan is rather good. The mines are all at work, and the rebel Auguero had been captured, and there was an end to all disturbances.

Dr. Velaz Sarsfield turns out to be the great opponent to our River Plate fowling. We regret sincerely that we had not time to read the charge and counter charge...

with grass. In front of his office there is a sort of muddy Hallsport: no one has been found in the River Plate courageous enough to cross it.

It is with sincere pleasure that we see the National Government doing something to aid in educating the children in the interior provinces.

The Indians of the Chaco on the Cordovan and Santa Fe frontiers are getting worse and worse daily. General Pauero very properly treats, therefore, to re-establish the old fort of Sunchales...

On Tuesday evening the Dolores coach, drawn by 28 horses, got stuck on the Barracas road, right under the hill. It was afflictive to see how the outriders or quarteadores, beat the unfortunate horses...

The Government has received further information from the engineer who leads the expedition through the Chaco. On the 24th of May they were at a place called the Bracho Viejo...

The last news from San Juan is rather good. The mines are all at work, and the rebel Auguero had been captured, and there was an end to all disturbances.

We are refrained from publishing the terms of peace, proposed by the Flores Committee in this city, from a desire to save the character of this country abroad.

Last Sunday night the gas almost went out in Colon, to the no small astonishment of the ladies; luckily, however, the theatre was not left completely in the dark.

PASSENGERS

PARAGUAY

We have received the 'Somanario' 11th inst. Everything goes well at Asunción. We read of an enterprise started in Bolivia, with the object of opening communication through the Gran Chaco with Paraguay...

ROARIO

The 'Espigador' arrived yesterday with the 'Ferro Carril' of 21st inst. There is no news, except that the shareholders of the Central railway were paying their deposits...

PEACE IN BANDA ORIENTAL

Return of the Mediators. Great Rejoicings.

In the papers (Reforma) which we received yesterday morning there was nothing positive respecting the issue of the negotiations in charge of Messrs. Thornton, Eizalde, Sariva, Castellanos, and Lamos. The passengers, however, arrived per 'Corrientes,' reported that peace was made, and a special edition of the 'Pais' confirms this, with some particulars.

The 'Tribuna' gave yesterday the following, from its special correspondent:—"Everything is settled. Flores accepting the offered terms, although rumour runs that he is suspicious about the clause 'to disarm his troops.' The terms are: Aguirre remains President, a mixed administration to be formed, and Flores becoming Comte General of the Campaña."

The 'Tribuna's' 'Mesa de Redacción,' or in other words, the new Editor's Table, which they have started in imitation of the 'Standard,' threatens soon to break down from the quantity of papers on it...

We notice in exchange transactions, some bills done at 49 1/2, payable on the 30th inst. We believe both of our private banks are drawing at the same rates.

Business is not so good on the Bolsa, from what cause we know not. Produce is scarce, specie there is little done in, and now the brokers are turning their hands to land sales.

The system of buying in specie and selling in currency was greatly discussed on 'Change to-day, and all merchants agree with us that it is a most ruinous system.

One of the shipbrokers has, we perceive, resorted to a rather cheap way of advertising the sailing of his steamers by putting up a notice on the black board of the Bolsa.

calling to call attention to the great danger of indiscriminately buying up all the bills drawn so long as they were at a convenient rate, and with a liberal credit.

As we mentioned previously, there is great speculation going on in National Bonds, and we are credibly informed that they are being bought up by some high up parties.
