On Orange to day, there was considerable discussion as to the Pavon's news.

It was believed to be grossly exaggerated, and as a necessary consequence had a reactionary effect on gold.

Onces were forced down by large cash sales, and also by the Fraguero and Lind projects.

There is a feeling that something will eventually result from these schemes which will tend to improve our money market.

People, however, are very nervous, and if, as we said before, politics had the slight est influence on gold, it would have gone up seriously.

As the disturbance in Cordoba seems to be a fact, it is said that the Oriental Government has negotiated a loan with the Maua Bank for 800,000 pats.

but we cannot guarantee the rumour. The Casa de Moneda has raised the rate of interest on both gold and paper to fifteen per cent.

and allow on deposits 12 per cent. We cannot see why the Directors did not resort to this measure before this, as it was notorious the game that was going on in borrowing paper at a low interest.

buying ounces and depositing same at a much higher rate. This has, however, been stopped now, and may tend to improve paper.

Liverpool, 7th May, 1863. The market for River Plate wool.

has been very inactive during the whole of last month, and few sales have transpired.

Some parcels of washed merino have found buyers, however, at former value, but in general there is no demand whatever.

About 2200 bales are declared for public sale here on the 13th and 16th instant, thickly fine washed and greasy.

Anticipate that very little will be sold. Some demand exists for Santiago at late prices.

The London sales of Australian, Cape, etc wool commenced on the 30th ult., and are going at a further decline of 1d per lb from March prices.

At our public sales of coarse East India wool now progressing, the average prices of February are obtainable.

Most important discovery of the day. To Sheepfarmers and the Public in general. F. Calvert's Phosphine & Terobano.

The great reputation these specific here enjoyed in England on account of their extraordinary success in all cases where they have been applied has induced the proprietor to introduce them in this market.

In account of the immense sheep farming interest of the country. To enable sheepfarmers to obviate in future the enormous losses they sustain yearly, not only in the deterioration of the fleece but as frequently happens to loss of the animals itself, he offers only for a fair trial and feels confident of the result. The following are only a few of the many uses to which these specific have been successfully applied: 1. Sheep. For foot rot, rent, mange, etc. 2. Horses: grease, cracked heels, etc. 3. Cattle: distemper, and all diseases of the hoofs.

For wounds or bruises resulting from accident and for all general Veterinary purposes these remedies are sure. They are found to be remarkably successful in the Hospital in England for curing Cancer, Terobano is also used for curing scurvy, hives, skins and bones from all vermin and insects, the pencils already engaged with it in this city and Australia have invited the approval of purchasers in England who report them to be perfectly sound and sweet. The leather made from the hides is also declared to be superior in every respect.
